Immunization Cold Chain and Vaccine Logistics Network

Fact Book

A photograph showing three Indian women in traditional saris walking along a dirt road. They are carrying their babies on their backs. The woman on the left is wearing a red sari and carrying a blue bag. The woman in the middle is wearing a pink sari. The woman on the right is wearing a green sari and has her hand raised. In the background, there are trees and a fence.

ASSAM

Fact Sheet

Immunization Cold
Chain and Vaccine
Logistics Network

AS

The cold chain system in Assam consists of 1,749 working cold chain equipment.

5

Walk-in Coolers

873

Ice-Lined Refrigerators

868

Deep Freezers

3

Solar Equipment

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
- eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

ASSAM

The Universal Immunization Programme in Assam aims to immunize a target population of **6.8** lakh children and **7.6** lakh pregnant women, every year.

33
Vaccine
Store
Keepers

689
Cold
Chain
Handlers

The human resource network to manage vaccine logistics in Assam consists of 33 vaccine store keepers and 689 primary cold chain handlers. They work under the guidance of the State Immunization Officer, State Cold Chain Officer, District Immunization Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the functional vaccine stores and cold chain points of Assam. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 42 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Assam is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store located at Guwahati (in district Kamrup Metro), caters to the entire vaccine supply in the state, through 5 regional vaccine stores and 27 district vaccine stores located at district headquarters. The DVSs supply vaccines to 689 cold chain points located at the community health centres and primary health centres. The CCPs cater to immunization session sites.

Dry Stocks

The supply of dry stock in Assam is same as the vaccine flow. The SVS provides the entire dry stock supply including auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, in the state through 27 DVSs, and further to the CCPs.

Cold Chain Points

- Assam has an average number of 25 CCPs per district.
- 83 per cent of the CCPs cater to a population of less than a lakh, and 5 per cent of the CCPs cater to a population of more than 2 lakhs.

B

Vaccine Delivery Mechanism

- 80 per cent of the vaccine delivery from CCPs to session sites is done through AVD and the remaining 20 per cent by ANM.
- At least one functional vaccine van is available at 25 DVSs, out of the total 27 DVSs. All of them also have a full-time driver for the vans.
- In 60 per cent cases, the DVSs follow pull mechanism of vaccine distribution, based on vaccine requisition. The remaining vaccine distribution takes place through the push mechanism.
- Vaccine distribution from DVS to CCPs is mostly once a month.

C

Cold Chain Equipment

The immunization cold chain network of Assam runs on 1,749 working cold chain equipment installed across 722 vaccine stores and cold chain points. Assam has 5 active walk-in coolers, 873 ice-lined refrigerators, 868 deep freezers and 3 solar equipment.

Table 1: Working Cold Chain Equipment in Assam

Type of store	Type of Equipment					Solar
	WIF	WIC	ILR	DF		
Total	1,749					
	0	5	873	868	3	
SVS	0	1	4	1	-	
RVS	-	4	-	5	-	
DVS	-	-	109	65	-	
CCP	-	-	760	797	3	

Moreover, there are 14 cold chain equipment on stand-by and 50 cold chain equipment under repair.

Additionally, around 330 ILRs and 300 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Assam.

Non-electrical cold chain equipment

The state has 1,510 functional large cold boxes and 8,311 functional small cold boxes which are currently in use for the transportation of vaccines from the stores to CCPs and from the CCPs to the beneficiaries.

Stabiliser

Over 89 per cent ILRs and 92 per cent DFs are attached with a functional stabiliser and over 95 per cent of these stabilisers are dedicated to the equipment.

Thermometer

87 per cent ILRs and 93 per cent DFs have a functional thermometer kept inside them.

D

Human Resource

- The state has 689 primary cold chain handlers across all CCPs. The position of cold chain handlers is not vacant at any of the cold chain points.
- Nearly 10 per cent of the CCHs are qualified upto 10th standard; 76 per cent of the CCHs are qualified upto 12th standard and the rest of the CCHs are graduates or have pursued higher education.
- 93 per cent CCHs have received the training for cold chain handlers and nearly 84 per cent of these received it within the last one year.
- 100 per cent CCHs have received eVIN training in Assam.

A photograph showing a woman in a red sari holding a baby on her shoulder, looking down at a clipboard held by another woman in a white shirt. In the foreground, a woman in a blue sari is writing on a clipboard. The background shows other women in traditional Indian attire.

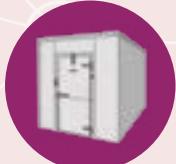

BIHAR

Fact Sheet

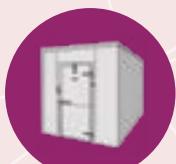

**Immunization Cold
Chain and Vaccine
Logistics Network**

The cold chain system in Bihar consists of 1,946 working cold chain equipment.

3
Walk-in
Freezers

17 Walk-in Coolers

1,039
Ice-Lined
Refrigerators

887 Deep Freezers

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
 - eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

BIHAR

The Universal Immunization Programme in Bihar aims to immunize a target population of **30.8** lakh children and **32.6** lakh pregnant women, every year.

The human resource network to manage vaccine logistics in Bihar consists of 48 vaccine store keepers and 606 cold chain handlers, to manage the vaccine logistics. They work under the guidance of the State Immunization Officer, District Immunization Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points of Bihar. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 45 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Bihar is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store located at Patna, caters to the entire vaccine supply in the state through the regional vaccine stores and district vaccine stores. These DVSs supply vaccines to the cold chain points located at the sub-district level. The CCPs further provide vaccines to the session sites.

Dry Stocks

The supply of dry stock in Bihar follows a separate route from the vaccines until it reaches the district vaccine stores. The state dry stock store is supplied with auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, by the manufacturers. The state dry stock store supplies these syringes to all DVSs.

Cold Chain Points

- Bihar has an average number of 16 CCPs per district. However, there is a wide variation, ranging from 6 CCPs in Arwal to 37 CCPs in Patna.
- 46 per cent of CCPs cater to a population of more than 2 lakhs. 43 per cent of CCPs cater to a population of 1-2 lakhs and only 11 per cent of CCPs cater to a population of less than 1 lakh.

Session Sites

- On an average, a district in Bihar has 2,786 session sites; varying from 748 session sites in Sheikhpura to 5,286 sites in Patna.
- On an average, one CCP caters to 176 session sites; ranging from 66 session sites catered by Piprashi PHC West Champaran to 470 session sites catered by PHC Harnatarh in district West Champaran. There are many other CCPs in Bihar which cater to 400 or more session sites, namely Sadar PHC Biharsarif (470), PHC Araria Sadar (464), Referral Hospital Raniganj (446), SDH Forbesganj (436), PHC Manjholia (435), PHC Barsoi (424), PHC Narkatiyaganj (421), Refral hospital Pirpainti (417), PHC Surajgarha (417), PHC Hajipur (407) and PHC Kochadhaman (400).
- Majority of the session sites (more than 70 per cent) in Bihar are within the range of 30 km from respective CCPs. However, a couple of CCPs have very distant session sites, such as PHC Chainpur (75), PHC Chakai (70), PHC Ramnagar (60), PHC Motihari (50) and PHC Padarak (50).

B

Vaccine Delivery Mechanism

- Around 95 per cent of vaccine delivery from CCPs to session sites is done by alternate vaccine delivery (courier) and the remaining 5 per cent is delivered through other sources.
- Functional vaccine vans are available at all 38 DVSs.
- Three functional vaccine vans do not have drivers associated with them.
- Over 80 per cent DVSs follow pull mechanism of vaccine distribution, based on requisition raised by CCPs. The remaining DVSs supply vaccines as per availability.
- Vaccine supplies from DVS to CCP is on monthly basis, subject to the availability of stocks.

C

Cold Chain Equipment

The immunization cold chain network of Bihar runs on 1,946 working cold chain equipment installed across 654 vaccine stores and cold chain points. These include 3 walk-in freezers, 17 walk-in coolers, 1,039 ice-lined refrigerators and 887 deep freezers.

Table 1: Working Cold Chain Equipment in Bihar

Type of Store	Type of Equipment			
	WIF	WIC	ILR	DF
Total	1,946			
	3	17	1,039	887
SVS	1	4	-	-
RVS	2	13	1	3
DVS	-	-	165	107
CCP	-	-	874	780

Moreover, there are 51 cold chain equipment on stand-by and 134 cold chain equipment under repair. The state does not have any solar equipment.

Additionally, around 600 ILRs and 140 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Bihar.

Non-electrical cold chain equipment

The state has 4,440 functional large cold boxes and 16,608 functional small cold boxes. Around 75 per cent of these cold boxes are currently in use for the transportation of vaccines from stores to CCPs and CCPs to beneficiaries.

Stabiliser

- Nearly all the functional DFs are attached with a functional stabiliser and 85 per cent of these are dedicated stabilisers.
- Around 87 per cent of the functional ILRs are attached with a functional stabiliser and 75 per cent of these stabilisers are dedicated to the ILR.

Thermometer

Over 91 per cent of DFs and ILRs have a functional thermometer kept inside them.

D

Human Resource

- The state has 48 vaccine store keepers and 606 cold chain handlers. The position of cold chain handlers is not vacant at any of the cold chain points.
- There is no dedicated position of cold chain handler in the state and it is an assigned responsibility. In Bihar, around 70 per cent CCHs are either ANMs, MPWs, LHV or health supervisors.
- Nearly 23 per cent of the CCHs are qualified upto 10th standard, 47 per cent of the CCHs are qualified upto 12th standard and the remaining 30 per cent of the CCHs are graduates or have pursued higher education.
- All the CCHs have received the training for cold chain handler within the last three years.
- All the CCHs have received the eVIN training.
- Cold chain handlers are provided supportive supervision on a regular basis.

CHHATTISGARH

The Universal Immunization Programme in Chhattisgarh aims to immunize a target population of approximately **6.8** lakh children and **7.5** lakh pregnant women, every year.

31
Vaccine
Store
Keepers

523
Cold
Chain
Handlers

The human resource network to manage vaccine logistics in Chhattisgarh consists of 31 vaccine store keepers and 523 cold chain handlers. They work under the guidance of the State Immunization Officer, District Immunization Officers and Medical Officers Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points of Chhattisgarh. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 34 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Chhattisgarh is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store located at Raipur caters to the entire vaccine supply in the state, through regional and district vaccine stores. These DVSs supply vaccines to the cold chain points located at community health centres and primary health centres. The CCPs further cater to the session sites.

Dry Stocks

The supply of dry stock in Chhattisgarh follows a separate route of distribution from the vaccines route until it reaches the district vaccine store. The state dry stock store is supplied with auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml from the manufacturers. The state dry stock store supplies these syringes to all the regional vaccine stores that further supply them to the district vaccine stores.

Cold Chain Points

- Chhattisgarh has an average number of 19 CCPs per district.
- Around 80 per cent of the CCPs cater to a population of less than a lakh. Nearly 5 per cent of the CCPs cater to a population of more than 2.5 lakh.

Session Sites

- On an average, one CCP in Chhattisgarh caters to 28 session sites. However, there is a wide variation in the number of session sites attached to each CCP.
- A few districts have higher than average number of session sites attached to their CCPs, namely Jashpur (85), Raigarh (83), Balrampur (65), Janjgir Champa (55), Gariyaband (52) and Koriya (51).
- A few CCPs cater to a very high number of session sites - CHC Pamgarh (195), CHC Pathalgaon (187), CHC Pussore (179), CHC Lailunga (171), CHC Jaijaipur (169), CHC Janakpur (166), CHC Baramkela (161) etc.
- Majority of the session sites (68 per cent) in Chhattisgarh are within the range of 30 km from the respective CCPs. However, a handful of CCPs have session sites located at very long distances, namely CHC Kurud (280), PHC Gadiras (100), PHC Janjgir (100), CHC Kasdol (70), CHC Rajpur (67), PHC Akkadongri (65), CHC Chhuikhadhan (60) and CHC Pathalgaon (55).

B

Vaccine Delivery Mechanism

- 18 per cent of the vaccine delivery from CCPs to session sites is done by the auxiliary nurse and midwife and 82 per cent of the vaccine delivery is carried out by alternate vaccine delivery.
- Functional vaccine vans are available at all 27 DVSs, of which 20 vans have a full-time driver associated with each van.
- DVS Bastar, DVS Dantewada and DVS Kanker have two vaccine vans each.
- 52 per cent of the DVSs follow pull mechanism of vaccine distribution, based on requisition raised by CCPs. The remaining DVSs supply vaccines as per availability.
- Over 80 per cent DVSs supply vaccines every month.

C

Cold Chain Equipment

The immunization cold chain network of Chhattisgarh runs on 1,391 working cold chain equipment installed across 554 vaccine stores and cold chain points. These include 1 walk-in freezer, 4 walk-in coolers, 678 ice-lined refrigerators, 10 solar equipment and 698 deep freezers.

Table 1: Working Cold Chain Equipment in Chhattisgarh

Type of Store	Type of Equipment				
	WIF	WIC	ILR	Solar	DF
Total	1,391				
	1	4	678	10	698
SVS	1	2	-	-	0
RVS	-	2	6	-	3
DVS	-	-	67	-	53
CCP	-	-	605	10	642

Moreover, there are 80 cold chain equipment on stand-by and 138 cold chain equipment under repair.

Additionally, around 160 ILRs and 220 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Chhattisgarh.

Non-electrical cold chain equipment

The state has 543 functional large cold boxes and 2,280 functional small cold boxes which are currently in use for the transportation of vaccines from stores to CCPs and from CCPs to the beneficiaries.

Stabiliser

Nearly 70 per cent of ILRs and DFs are attached with a functional stabiliser and nearly two-thirds of these are dedicated stabilisers.

Thermometer

Nearly 90 per cent of DFs and 85 per cent of ILRs have a functional thermometer kept inside them.

D

Human Resource

- The state has 31 vaccine store keepers and 523 cold chain handlers. The position of cold chain handler is not vacant at any of the cold chain points.
- Nearly 20 per cent of CCHs are qualified upto 10th standard, 35 per cent are qualified upto 12th standard and the remaining 45 per cent are graduates or have pursued higher education.
- All the CCHs have received the training for cold chain handlers within the last three years.
- All the cold chain handlers have received the eVIN training in Chhattisgarh.
- Cold chain handlers are provided supportive supervision on a regular basis.

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
- eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

GUJARAT

The Universal Immunization Programme in Gujarat aims to immunize a target population of **13.2** lakh children and **14.5** lakh pregnant women, every year.

The human resource network to manage vaccine logistics in Gujarat consists of 47 vaccine store keepers and 1,916 cold chain handlers, to manage the vaccine logistics. They work under the guidance of the State Immunization Officer, District H Officers and Medical officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Gujarat. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 73 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Gujarat is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The six regional vaccine stores located at Gandhinagar, Ahmedabad, Vadodara, Rajkot, Surat and Bhavnagar cater to the entire vaccine supply in the state.

Different vaccines follow different supply chains in Gujarat:

- Pentavalent Vaccine is directly supplied from the manufacturer to all RVSSs.
- RVS Gandhinagar supplies:
 - All the vaccines (except Pentavalent) to two RVSSs (Ahmedabad and Bhavnagar)
 - IPV, OPV and DPT to 3 RVSSs (Surat, Rajkot and Vadodara)
- RVS Surat, RVS Rajkot and RVS Vadodara receive BCG, Measles and TT vaccines directly from the manufacturer.
- The buffer stock of all the vaccines is supplied from the Government Medical Stores Depot (GMSD) to RVS Gandhinagar.

All RVSSs supply vaccines to their respective district vaccine stores and corporation vaccine stores. The 33 DVSs and 8 CVSs supply vaccines to cold chain points located at community health centres, primary health centres, urban health centres, sub-district hospitals, district hospitals and medical college hospitals in their respective areas. These 1,916 CCPs cater to 51,602 session sites.

Dry Stocks

The supply of dry stock in Gujarat follows two levels of supply chain system:

- Auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml are supplied from manufacturers to the state dry stock store at Ahmedabad and then to all DVSs and CVSs.
- Syringes of 0.5 ml are supplied from manufacturers to all RVSSs and then to DVSs and CVSs.

Cold Chain Points

- Gujarat has an average number of 57 CCPs per district.
- Around 89 per cent CCPs cater to a population of less than a lakh.

Session Sites

- On an average, each CCP caters to 27 session sites in Gujarat.
- A few districts have higher than average number of session sites attached to their CCPs, namely Dang (38), Valsad (34), Banaskantha (27), Dahod (30) and Kutch (28).
- A few CCPs cater to a very high number of session sites, namely UHC Gandhidham, Kutch (150 session sites) and UHC Vatva and UHC Nikol, Ahmedabad (75 session sites).
- Majority of the session sites in Gujarat are within the range of 30 km from respective CCPs. Only a handful of session sites are located at the distance of more than 30 km.

B

Vaccine Delivery Mechanism

- 17 per cent of the vaccine delivery from the CCPs to session sites is done by the ANM and 83 per cent of vaccine delivery is carried out by the AVD.
- Vaccine vans are available at all DVSs, except DVS Botad. The state has 41 vaccine vans, of which 38 vans are functional. These vans comprise of both full-time (24) and part-time (14) drivers associated with them.
- 9 DVSs have two vaccine vans each.
- 73 per cent DVSs follow pull mechanism of vaccine distribution, based on requisition raised by CCPs. Although vaccines are distributed by DVS up to the last cold chain point through vaccine vans.

C

Cold Chain Equipment

The immunization cold chain network of Gujarat runs on 4,083 working cold chain equipment installed across 1,963 vaccine stores and cold chain points. These include 2 walk-in freezer, 9 walk-in coolers, 2,142 ice-lined refrigerators and 1,930 deep freezers. There are no solar equipment in Gujarat.

Table 1: Working Cold Chain Equipment in Gujarat

Type of Store	Type of Equipment			
	WIF	WIC	ILR	DF
Total	4,083			
2	9	2,142	1,930	
RVS	2	9	33	32
DVS/CSV	-	-	198	80
CCP	-	-	1,911	1,818

There are 136 cold chain equipment on stand-by and 37 cold chain equipment under repair.

Additionally, around 870 ILRs and 570 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Gujarat.

Non-electrical cold chain equipment

The state has 2,461 functional large cold boxes and 15,083 functional small cold boxes which are currently in use for the transportation of vaccines from stores to CCPs and from CCPs to beneficiaries.

Stabiliser

Majority of ILRs and DFs (93 per cent) are attached with a dedicated and functional stabiliser.

Thermometer

Majority of ILRs and DFs (97 per cent) have a functional thermometer kept inside them.

D

Human Resource

- The state has 47 vaccine store keepers and 1,916 cold chain handlers. The position of cold chain handlers is vacant at 10 cold chain points.
- 89 per cent of vaccine store keepers and CCHs are designated as pharmacist.
- Nearly all (97 per cent) of the CCHs hold diploma, graduate or post graduate qualification.
- 87 per cent of the CCHs have received the training for cold chain handler within the last three years.
- All the CCHs have received the eVIN training.
- CCHs are provided supportive supervision on a regular basis.

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
- eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

JHARKHAND

The Universal Immunization Programme in Jharkhand aims to immunize a target population of **8.41** lakh children and **9.34** lakh pregnant women, every year.

The human resource network to manage vaccine logistics in Jharkhand consists of 26 vaccine store keepers and 215 cold chain handlers. They work under the guidance of the State Immunization Officer, the State Cold Chain Officer, District Immunization Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Jharkhand. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 17 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Jharkhand is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store located at Ranchi, caters to the entire vaccine supply in the state, through 1 regional and 24 district vaccine stores. The district vaccine stores supply vaccines to the cold chain points located at the sub-district level that further provide vaccines to the session sites.

Dry Stocks

The supply of dry stock in Jharkhand follows the same route as vaccines till the district vaccine store. The state dry stock store is supplied auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, from manufacturers. The state dry stock store supplies these to all DVSs.

Cold Chain Points

- Jharkhand has an average number of 9 CCPs per district. However, there is a wide variation, ranging from 4 CCPs each in Jamtara and Koderma to 19 CCPs in West Singhbhum (Chaibasa).
- 27 per cent of CCPs cater to a population of above 2 lakh, 38 per cent of CCPs cater to a population of 1-2 lakh and only 35 per cent of CCPs cater to a population of below 1 lakh.

Session Sites

- On an average, a district in Jharkhand has 1,531 session sites. Varying from 627 session sites in district Ramgarh to 2,919 sites in district Ranchi.
- On an average, 171 session sites are catered by one CCP; ranging from 31 session sites catered by CHC Churchu in district Hazaribagh to 672 session sites catered by CHC Chas in district Bokaro. There are three other CCPs which cater to over 400 session sites, namely CHC Nirsa (451) and CHC Baghmara (432) in district Dhanbad and CHC Jugslai-cum-Golmuri (417) in district East Singhbhum.
- Majority of the session sites in Jharkhand are within the range of 30 km from respective CCPs. However, a couple of CCPs have farthest session sites at very long distances. These include three CCPs in district West Singhbhum - CHC Anandpur (145 km), CHC Manoharpur (130 km), and CHC Goilkera (110 km).
- Some other CCPs with session sites located at very long distances are CHC Manatau, Palamu (70 km), CHC Nawadih, Bokaro (65 km), CHC Chainpur, Gumla (65 km), CHC Ghatshila, East Singhbhum (60 km), CHC Mahuwadar, Latehar (58 km), CHC Bhandaria, Garhwa (55 km) and CHC Itkhori, Chatra (53 km).

B

Vaccine Delivery Mechanism

- Around 96 per cent of vaccine delivery from CCPs to session sites is done by AVD and the rest is delivered through ANMs.
- Functional vaccine vans are available in all DVSs and districts Dumka, Giridih and Simdega have two functional vaccine vans each.
- Nineteen districts have a driver available for vaccine vans and majority of these are full-time drivers.
- Over 54 per cent DVSs follows pull mechanism of vaccine distribution, based on the requisition raised by CCPs, whereas 46 per cent DVSs supply vaccines as per availability.
- 75 per cent of the DVSs supply vaccines to CCPs on a monthly basis. The remaining percentage of CCPs supply vaccines more frequently.

C

Cold Chain Equipment

The immunization cold chain network of Jharkhand runs on 816 working cold chain equipment installed across 241 vaccine stores and cold chain points. These include 2 walk-in freezer, 4 walk-in coolers, 350 ice-lined refrigerators, 456 deep freezers and 4 solar equipment.

Table 1: Working Cold Chain Equipment in Jharkhand

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar Equipment
Total	816				
	2	4	350	456	4
SVS	1	3	-	-	-
RVS	1	1	3	7	-
DVS	-	-	87	97	-
CCP	-	-	260	352	4

Moreover, there are 7 cold chain equipment on stand-by and 83 cold chain equipment under repair.

Additionally, around 330 ILRs and 200 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Jharkhand.

Non-electrical cold chain equipment

The state has 1,686 functional large cold boxes and 2,043 functional small cold boxes.

Stabiliser

Around 83 per cent of the functional ILRs and 81 per cent DFs are attached with a functional stabiliser.

Thermometer

Around 85 per cent of DFs and ILRs are attached with a functional thermometer.

D

Human Resource

- The state has 26 vaccine store keepers and 215 cold chain handlers. The position of CCHs is not vacant at any of the cold chain points.
- There is no dedicated position of CCH in the state and it is an assigned responsibility. In Jharkhand, over 65 per cent of the CCHs are either nurse or other health workers, the remaining are mostly fourth-grade staff.
- Nearly 31 per cent of CCHs hold diploma, graduate or post graduate qualification; 42 per cent are qualified upto 12th standard; and the remaining are qualified upto 10th standard.
- Only 72 per cent of the CCHs have received the training for cold chain handlers.
- All the CCHs have received the eVIN training.
- CCHs are provided supportive supervision on a regular basis.

Madhya Pradesh

MADHYA PRADESH

The Universal Immunization Programme in Madhya Pradesh aims to immunize a target population of **18.45** lakh children and **21.65** lakh pregnant women, every year.

The human resource network to manage vaccines in Madhya Pradesh consists of 58 vaccine store keepers and 1,126 cold chain handlers. They work under the guidance of the State Immunization Officer, the State Cold Chain Officer, Regional Directors, District Immunization Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Madhya Pradesh. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 81 batches of training and 30 batches of refresher trainings on eVIN. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Madhya Pradesh is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The four regional vaccine stores located at Bhopal, Indore, Gwalior and Jabalpur, cater to the entire vaccine supply in the state. The supply chain is same for all the vaccines except for the Inactivated Polio Virus Vaccine. IPV is only supplied to RVS Bhopal, which further supplies it to other RVSs of the state.

Moreover, the buffer stock of all the vaccines is supplied from the government medical stores depot to all regional vaccine stores directly, or at times only to RVS Bhopal.

All RVSs supply vaccines to their respective divisional vaccine stores and to the district vaccine stores. The 51 district vaccines stores supply vaccines to the cold chain points located at the community health centres, primary health centres, urban health centres, civil hospitals, district hospitals and medical college hospitals in their respective areas.

Dry Stocks

The supply of dry stock in Madhya Pradesh follows a separate route. Auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml are supplied from manufacturers or GMSD Mumbai to regional dry stores at Indore, Bhopal, Jabalpur and Gwalior and then from there they are further supplied to the respective divisional dry store and to the district dry store. The district dry store then caters to all the cold chain points.

Cold Chain Points

- Madhya Pradesh has an average number of 22 CCPs per district. However, there is a wide variation, ranging from 7 CCPs in Harda to 50 CCPs in Dhar.
- One-fourth of the total number of cold chain points in the state cater to a population of more than 1 lakh, including 74 such CCPs that cater to a population of over 2 lakh.

B

Vaccine Delivery Mechanism

Functional, insulated vaccine vans are available at 49 DVSs, 4 RVSs, and 3 DiVSs; and all of them have a full-time driver for the van. DVS Mandla and Ashoknagar do not have functional vaccine vans due to damaged tyres and mechanical work. All RVSs, DiVSs and DVSs have vaccine distribution plan along with route map for vaccine van.

C

Cold Chain Equipment

The immunization cold chain network of Madhya Pradesh runs on 3,224 working cold chain equipment installed across 1,184 vaccine stores and cold chain points. These include 4 walk-in freezers, 10 walk-in coolers, 1,556 ice-lined refrigerators and 1,650 deep freezers. There are four solar equipment in Madhya Pradesh.

Table 1: Working Cold Chain Equipment in Madhya Pradesh

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar
Total	3,224				
	4	10	1,556	1,650	4
RVS	4	7	3	20	-
DiVS	-	4	16	10	-
DVS	-	1	233	149	-
CCP	-	-	1,302	1,501	4

Moreover, there are 600 cold chain equipment on stand-by and 183 cold chain equipment under repair.

Additionally, around 500 ILRs and 330 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Madhya Pradesh.

Non-electrical cold chain equipment

The state has 2,023 functional large cold boxes, 11,637 functional small cold boxes and 86,191 vaccine carriers currently in use for the transportation of vaccines from stores to CCPs and from the CCPs to beneficiaries.

D

Human Resource

- Madhya Pradesh has 58 vaccine store keepers and 1,126 CCHs across all CCPs. None of the cold chain points have vacant position for cold chain handlers.
- There is no dedicated position of cold chain handler in the state and it is an assigned responsibility. In Madhya Pradesh, around 90 per cent CCHs are ANMs, pharmacists, MPHWs, LHV, MPSs or Health Supervisors.
- Nearly one-fourth of the CCHs are qualified upto 10th standard and another one-fourth are qualified upto 12th standard. Nearly 30 per cent of them hold a diploma or are graduates; the remaining hold post graduate qualification.
- All the CCHs have received the training for cold chain handler within the last three years, while 100 per cent of them have received the eVIN training.
- Cold chain handlers are provided supportive supervision on a regular basis with emphasis on all significant aspects of the vaccine cold chain.

MANIPUR

The Universal Immunization Programme in Manipur aims to immunize a target population of **48.8 thousand** children and **54.3 thousand** pregnant women, every year.

The human resource network to manage vaccine logistics in Manipur consists of 12 vaccine storekeepers and 102 cold chain handlers. They work under the guidance of the State Nodal Officer-Immunization, State Cold Chain Officer, District Immunization Officers/District Family Welfare Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Manipur. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through seven batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Manipur is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store, located at Imphal West, receives vaccine stocks from GMSD Kolkata and caters to the state, through 11 district vaccine stores. Nine of these DVSs are located at district headquarters and two are located at the sub-district level. These DVSs supply vaccines to 102 cold chain points located at medical colleges, district hospitals, community health centres, primary health centres and a health sub-centre. The CCPs provide vaccines to all 2,189 session sites.

Dry Stocks

The dry stocks of auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, are supplied by the manufacturers. The 'Family Welfare Store' that shares premises with the SVS supplies dry stocks to 11 DVSs that further supply the same to the CCPs.

Cold Chain Points

- On an average, there are 9 CCPs per district in Manipur. However, there is a wide variation in this number; ranging from district Chandel with only 4 CCPs to district Thoubal with 19 CCPs.
- All CCPs cater to a population of less than 1 lakh.

Session Sites

- The state provides vaccination through 2,189 session sites. Highest number of session sites (301) are in district Imphal East.
- On an average, 21 session sites are catered by one CCP.
- There is a wide variation in the number of session sites catered by a CCP, ranging from one CCP with only 3 session sites (PHC Punanamei of district Senapati) to another CCP catering to 62 session sites (PHC Machi of district Churachandpur).
- There is also wide variation in the distance of session sites from the respective CCPs, ranging from a distance of 1 km for Lamding Lampal Leikai session site under PHC Wangjing Lamding in district Thoubal, to a distance of 120 km distance for Khengjoi session site under PHC Moreh and 130 km for Wajang session site under CHC Chakpikarong in district Chandel.

B

Vaccine Delivery Mechanism

- Over 85 per cent of vaccines, from CCPs to session sites, are delivered by ANM or other health staff. The remaining 9 per cent of vaccine stocks are delivered by AVD and 4 per cent by vaccine vans.
- Functional vaccine vans are available at all nine districts and two sub districts; eight districts have part-time drivers utilised from the offices of the district immunization officer, DFWO or others for vaccine delivery from the DVS to CCPs. Three districts, namely Bishnupur, Moreh and Chandel have functional vaccine vans but no driver is available for vaccine delivery.
- All DVSs collect vaccines from the SVS; and the process of SVS sending vaccines to DVSs is yet to be initiated.
- All DVSs distribute vaccines to CCPs through push mechanism except Imphal East, Tamenglong, Imphal West and Kangpokpi where push mechanism of vaccine is yet to be initiated. All DVSs issue vaccines as per the availability of stocks. The frequency of issuing vaccine is not standardised among DVSs and could vary from weekly or monthly to occasionally.

C

Cold Chain Equipment

The immunization cold chain network of Manipur runs on 210 working cold chain equipment installed across 114 vaccine stores and cold chain points. There are two walk-in coolers in the state. However, one WIC has been non-functional for the last six months and the other one has not been commissioned yet as the building where it is situated was severely affected by earthquake. Manipur has 96 ice-lined refrigerators, 102 deep freezers and 12 solar equipment.

Table 1: Working Cold Chain Equipment in Manipur

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar Equipment
Total	210				
	-	-	96	102	12
SVS	-	-	7	3	-
DVS	-	-	13	15	-
CCP	-	-	79	85	

Moreover, there are 5 cold chain equipment on stand-by and 62 cold chain equipment under repair.

Additionally, around 40 ILRs and 40 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Manipur.

Non-electrical cold chain equipment

The state has 75 functional large cold boxes and 98 functional small cold boxes which are currently in use for the transportation of vaccines from stores to CCPs.

Stabiliser

- Around 78 per cent of the ILRs and DFs are attached with a functional stabiliser and nearly half of these stabilisers are dedicated to the equipment.
- 90 per cent of the ILRs and DFs are attached with a functional thermometer.

D

Human Resource

- Manipur has 12 vaccine store keepers and 102 CCHs and none of the cold chain points have vacant positions for CCH.
- There is no dedicated position of cold chain handler in the state and it is an assigned responsibility. In Manipur, around 45 per cent CCHs are male health supervisors and another 50 per cent are ANMs, female health supervisors, GNM or staff nurse.
- Nearly 25 per cent CCHs are qualified upto 10th standard, 50 per cent are qualified upto 12th standard and the remaining hold diploma or graduation degree.
- Over 80 per cent CCHs have received the training for cold chain handlers, and majority of them have received it within a year.
- 100 per cent CCHs have received the eVIN training.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Nagaland. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through seven batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Nagaland is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store, located at Kohima, caters to the entire vaccine supply in the state, through 11 district vaccine stores located at the district headquarters. These district vaccine stores supply vaccines to 111 cold chain points located at the community health centres, primary health centres and sub-centres. The CCPs cater to 1,359 session sites.

Dry Stocks

The supply of dry stock in Nagaland is same as the vaccine flow. The dry stocks of auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, are supplied by the manufacturers. The SVS supplies the dry stock to all the CCPs in the state, through 11 DVSs.

Cold Chain Points

- On an average, there are 10 CCPs per district in Nagaland.
- Nearly all CCPs cater to a population of less than 1 lakh, except 2 CCPs (UPHC Kohima and District Hospital Dimapur).

Session Sites

- On an average, one CCP caters to 12 session sites in Nagaland.
- Majority of the session sites in Nagaland are within the range of 30 km from the respective CCPs. However, some session sites are located at a greater distance from the CCP, namely CHC Meluri (Avakhun Village, 178 km), CHC Pfutsero (Laruri Village, 126 km) and CHC Bhandari (Amboto Old sub-centre, 184 km).

B

Vaccine Delivery Mechanism

- 75 per cent of vaccine delivery from CCPs to session sites is done by ANM and other health staff, and the remaining 25 per cent is carried out through AVD and vaccine vans.
- One functional vaccine van is available at 10 DVSs, except at DVS Phek. In total, the state has 11 vaccine vans, of which 10 vans are functional and have full-time drivers.
- DVSs follows both push and pull mechanism of vaccine distribution. The frequency of vaccine distribution is monthly.

C

Cold Chain Equipment

The immunization cold chain network of Nagaland runs on 177 working cold chain equipment installed across 123 vaccine stores and cold chain points. There are no active walk-in coolers and walk-in freezers in the state. Nagaland has 82 working ice-lined refrigerators, 90 deep freezers and 5 solar equipment.

Table 1: Working Cold Chain Equipment in Nagaland

Type of Store	Type of Equipment				
	WIF	WIC	ILR	Solar Equipment	DF
Total			177		
	-	-	82	5	90
SVS	-	-	5	-	3
DVS	-	-	12	-	14
CCP	-	-	65	5	73

Moreover, there are 50 cold chain equipment under repair in the state.

Additionally, around 60 ILRs and 60 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Nagaland.

Non-electrical cold chain equipment

The state has 59 functional large cold boxes and 106 functional small cold boxes which are currently in use for the transportation of vaccines from stores to CCPs and from CCPs to beneficiaries.

Stabiliser

- Over 95 per cent ILRs and 72 per cent DFs are attached with a functional stabiliser and nearly 74 per cent of these stabilisers are dedicated to the equipment.
- Majority of ILRs and DFs (97 per cent) are attached with a functional thermometer.

D

Human Resource

- Nagaland has 123 CCHs working across all CCPs.
- Nearly 40 per cent of CCHs are qualified upto 10th standard, 45 per cent of them are qualified upto 12th standard and 14 per cent are graduates or have pursued higher qualification.
- Only 62 per cent CCHs have received the training for cold chain handler.
- 100 per cent CCHs have received the eVIN training.

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
- eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

ODISHA

The Universal Immunization Programme in Odisha aims to immunize a target population of **8.68** lakh children and **9.55** lakh pregnant women, every year.

31
Vaccine
Store
Keepers

1,123
Cold
Chain
Handlers

The state human resource network to manage vaccine logistics in Odisha consists of 1 state vaccine logistics manager, 8 regional vaccine cold chain managers, 31 district vaccine store keepers, 31 district vaccine logistics managers and 1,123 cold chain handlers. They work under the guidance of the State Immunization Officer, the State Cold Chain Officer, District Immunization Officers and Medical Officers in-Charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Odisha. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 69 batches of training programmes on eVIN, during the last two quarters of 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Odisha is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine store located at Bhubaneswar in district Khurda supplies vaccine stocks in the state, through regional and district vaccine stores. These DVSs supply vaccines to the cold chain points located at sub-district level. The CCPs provide vaccines to the session sites for immunization.

Dry Stocks

The supply of dry stock such as auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml follows the same route as the vaccines. Syringes are bundled along with the vaccine stocks.

Cold Chain Points

- Odisha has an average number of 36 CCPs per district. However, there exists some variation in this number, ranging from 10 CCPs in Deogarh and Boudh to maximum 77 CCPs in Ganjam.
- Only 11 per cent of CCPs cater to a population of more than 1 lakh, including 18 CCPs that cater to a population of over 2 lakh. Half of these CCPs are in district Baleswar. About 30 per cent of CCPs cater to a population of less than 25,000.

B

Vaccine Delivery Mechanism

- The entire vaccine delivery from CCPs to session sites is done by AVD.
- At least one functional vaccine van with a full-time driver is available in 29 districts. The remaining two districts - Rayagada and Malkangiri do not have any vaccine van.
- District Sundargarh has three functional vaccine vans with full-time drivers, six other districts have two functional vaccine vans with full-time drivers.
- Over 70 per cent DVSs follow pull mechanism of vaccine distribution, based on requisition raised by CCPs. The remaining DVSs supply vaccines as per availability.
- Supply of vaccines from DVS to CCP is mostly done on monthly basis, subject to availability of stocks.

C

Cold Chain Equipment

The immunization cold chain network of Odisha runs on 2,643 working cold chain equipment installed across 1,163 vaccine stores and cold chain points. These include 1 walk-in freezer, 8 walk-in coolers, 1,313 ice-lined refrigerators, 1,310 deep freezers and 11 solar equipment.

Table 1: Working Cold Chain Equipment in Odisha

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar
Total	2,643				
	1	8	1,313	1,310	11
SVS	1	1	-	-	-
RVS	-	7	2	20	-
DVS	-	-	139	78	-
CCP	-	-	1,172	1,212	11

Moreover, there are 181 cold chain equipment on stand-by and 73 cold chain equipment under repair.

Additionally, around 500 ILRs and 450 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Odisha.

Non-electrical cold chain equipment

- The state has 4,141 large cold boxes; 65 per cent of these (2,698) are functional.
- The state has 12,990 small cold boxes; 79 per cent of these (10,325) are functional.

Stabiliser

Over 97 per cent of the deep freezers and ice-lined refrigerators are attached with a functional stabiliser and majority of these are dedicated stabilisers.

Thermometer

Over 98 per cent of deep freezers and ice-lined refrigerators are attached with a functional thermometer.

D

Human Resource

- The state has 9 vaccine cold chain managers, 31 district vaccine store keepers, 31 district vaccine logistics managers and 1,123 cold chain handlers. The position of CCHs is not vacant at any of the cold chain points.
- There is no dedicated position of CCH in the state and it is an assigned responsibility. In Odisha, 97 per cent CCHs are ANMs, MPHWs, LHVAs, lady health supervisors or MPHSSs.
- Nearly 67 per cent of CCH are qualified upto 10th standard and another 18 per cent are qualified upto 12th standard, the remaining hold a diploma, graduate or post graduate degree.
- 90 per cent of the CCHs have received the training for cold chain handlers.
- All the CCHs have received the eVIN training.
- CCHs are provided supportive supervision on a regular basis.

Refrigerators

RAJASTHAN

The Universal Immunization Programme in Rajasthan aims to immunize a target population of **17.3** lakh children and **20.1** lakh pregnant women, every year.

The human resource network to manage vaccine logistics in Rajasthan consists of 43 vaccine store keepers and 2,184 cold chain handlers. They work under the guidance of the State Immunization Officer, the State Cold Chain Officer, District Immunization Officers and Medical Officers in-Charge. The state has 41 refrigerator mechanics to maintain the cold chain equipment.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points in Rajasthan. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 98 batches of training programmes on eVIN, through late 2015 and early 2016. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Rajasthan is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The state vaccine stores located at Jaipur and Udaipur supply vaccine in the state through 7 regional vaccine stores and 34 district vaccine stores located at the district headquarters. The DVSs supply vaccines to 2,184 cold chain points located at the district hospitals, sub- divisional hospitals, satellite hospitals, community health centres, primary health centres and urban health care centers. The CCPs cater to 39,189 session sites in the state.

Dry Stocks

The supply of dry stock in Rajasthan follows a separate route from the vaccine flow. The state drug warehouse at Jaipur is supplied with auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml, from the manufacturers. It supplies the dry stock to all the regional drug warehouses and further to the district drug warehouses. These district warehouses send the dry supply to health facilities at the district and block levels.

Cold Chain Points

- Rajasthan has an average number of 64 CCPs per district. However, there is a wide variation, ranging from 22 CCPs in district Dholpur to 120 CCPs in district Nagaur.
- 19 per cent of CCPs cater to a population of more than 1 lakh.

Session Sites

- On an average, a district in Rajasthan has 1,153 session sites, varying from 307 session sites in district Sawai Madhopur to 2,219 sites in district Bhilwara.
- On an average, one CCP provides vaccines to 19 session sites. However, 43 CCPs cater to more than 50 session sites each. Some of the outliers are office of the Block Chief Medical Officer, Rajgarh, Churu (135 SSs), CHC Chhoti Shadari, Pratapgarh (103 SSs), CHC Govindgarh, Alwar (93 SSs), SDH YN Hospital, Kishangarh, Ajmer (90 SSs), PHC Sirsi, Jaipur 1 (81 SSs) and BCMO Churu (80 SSs).
- In some districts, vaccines travel large distances to reach the final beneficiary.

B Cold Chain Equipment

The immunization cold chain network of Rajasthan runs on 4,701 working cold chain equipment installed across 2,227 vaccine stores and cold chain points. There are 2 walk-in freezers, 9 walk-in coolers, 2,313 ice-lined refrigerators, 2,367 deep freezers and 10 solar equipment.

Table 1: Working Cold Chain Equipment in Rajasthan

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar
Total	4,701				
	2	9	2,313	2,367	10
SVS	2	4	5	14	-
RVS	-	5	9	13	-
DVS	-	-	103	92	-
CCP	-	-	2,196	2,248	10

The state has 355 cold chain equipment on stand-by and 313 cold chain equipment under repair.

Additionally, around 550 ILRs and 280 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Rajasthan.

Non-electrical cold chain equipment

In addition to this, there are 13,820 large cold chain boxes, of which 13,500 are functional and there are 82,850 small cold chain boxes, of which 72,328 are functional.

C Human Resource

- The state has 43 vaccine store keepers and 2,184 cold chain handlers . The position of CCH is not vacant at any of the cold chain points.
- There is no dedicated position of CCH in the state and it is an assigned responsibility. The LHV, ANMs, GNMs or male nurses at the facilities have either been deputed or given additional charge to handle the cold chain equipment.
- Majority of the cold chain handlers have received induction training for cold chain management, within the last three years.
- All the CCHs have received the eVIN training.
- CCHs are provided supportive supervision on a regular basis.

Sources of data:

- Live data from Electronic Vaccine Intelligence Network (eVIN), as accessed in July 2017.
- eVIN Preparatory Assessment Study, conducted by UNDP in year 2016, with updates provided by the state in 2017.

Uttar Pradesh

The Universal Immunization Programme in Uttar Pradesh aims to immunize a target population of **57.1** lakh children and **66.1** lakh pregnant women, every year.

The human resource network to manage vaccine logistics in Uttar Pradesh consists of 93 vaccine store keepers and 1,069 cold chain handlers. They work under the guidance of the State Immunization Officer, the State Cold Chain Officer, District Immunization Officers and Medical Officers in-charge.

The Electronic Vaccine Intelligence Network (eVIN) has been implemented across all the vaccine stores and cold chain points of Uttar Pradesh. eVIN has facilitated capacity-building of all vaccine store keepers and cold chain handlers in the state through 72 batches of training programmes and 43 batches of refresher training programmes on eVIN. eVIN equipped them with standardised stock registers and smartphones to digitise the vaccine stocks. The entire vaccine logistics data in Uttar Pradesh is now digitised and real-time data is available for informed decision-making.

A

Vaccine Supply Network

The nine state vaccine stores provide vaccines in the state through another nine divisional vaccine stores and 75 district vaccine stores. These DVSs supply vaccines to the 1,169 cold chain points located at the sub-district level. The CCPs supply vaccines to the session sites for immunization.

Dry Stocks

The supply of dry stock in Uttar Pradesh follows the same route as the vaccines. The state dry stock store at Lucknow receives auto-disabled syringes of 0.1ml, and 0.5ml and disposable reconstitution syringes of 5ml from the manufacturers and supplies to all the SVSs.

Cold Chain Points

- Uttar Pradesh has an average number of 14 CCPs per district. However, there is a wide variation, ranging from 5 CCPs in Shamli to 36 CCPs in Gorakhpur.
- Over 80 per cent of CCPs cater to a population of more than 1 lakh.

B

Cold Chain Equipment

The immunization cold chain network of Uttar Pradesh runs on 5,564 working cold chain equipment installed across 1,162 vaccine stores and cold chain points. These include 4 walk-in freezers, 23 walk-in coolers, 2,088 ice-lined refrigerators, 9 solar equipment and 3,443 deep freezers. Only 14 per cent of the functional DFs and 13 per cent of the functional ILRs are attached with a stabiliser.

Table 1: Working Cold Chain Equipment in Uttar Pradesh

Type of Store	Type of Equipment				
	WIF	WIC	ILR	DF	Solar
Total	5,564				
	4	23	2,088	3,443	6
SVS	4	13	30	42	-
DiVS	-	9	27	18	-
DVS	-	-	411	280	-
CCP	-	1	1,620	3,103	6

There are 247 cold chain equipment on stand-by and 357 cold chain equipment under repair.

Additionally, around 1,100 ILRs and 570 DFs are under the process of procurement by the Government of India for strengthening the cold chain infrastructure in Uttar Pradesh.

C

Human Resource

- The state has 93 vaccine store keepers and 1,069 cold chain handlers. The position of CCH is not vacant at any of the cold chain points.
- There is no dedicated position of CCH in the state and it is an assigned responsibility. In Uttar Pradesh, around 70 per cent CCHs are ANMs, MPWs, LHV or health supervisors.
- Nearly half of the CCHs are qualified up to 12th standard or below.
- Nearly one-third of the 1,069 cold chain handlers are women.
- All the CCHs have received the eVIN training.
- CCHs are provided supportive supervision on a regular basis.
